

Modern Solutions for your Kitchen

Bring Your KDS Into the Digital-First Era

Most Kitchen Display Systems (KDS) look like ancient relics from the past. Yet kitchens are hustling harder than ever, with orders coming in from everywhere.

Not only is your KDS visible to guests, it's the lynchpin for driving faster order fulfillment, accuracy, and satisfaction for teams and customers.

A Unified Solution

Qu's innovative KDS simplifies ordering and fulfillment processes by unifying POS & KDS in one efficient flow. Key Features:

- Modern attractive interface your teams will love
- Dynamic, responsive order status cells
- Production and fulfillment display modes
- Three order firing modes
- Bulk Board for high demand times
- Bi-directional restaurant and guest messaging
- Direct integration with Qu POS
- Direct 3rd party ordering integrations
- Micro-services, API-first, cloud-native architecture

Enjoy the Benefits

- Reduce errors + improve speed and accuracy
- Decrease wait times
- View all digital and in-store orders in one place
- Increase margins and reduce waste by ditching the printer
- Drive higher consistency in fulfillment across all ordering channels

Your Kitchen Quarterback

... Just Got Faster & Smarter

Give Your Kitchen a Hail Mary

- Fire on fly, next and tender
- Intuitive food prep and expo modes
- Detailed order data
- Order information, status, and health info
- Customer ETA Alerts
- Paid and Unpaid status notifications
