Sandwiches
BBQ
Salads

Top-Performing Pandemic Strategies

Digital Media, Promotions & LTOs, and Family Meals were Top 3 pandemic performing strategies

Brands also made big waves with **charitable efforts** in local communities and with creative **meal kits** offers

A top-down view of a coffee shop table. In the center is a white coffee cup filled with a frothy beverage, sitting on a white saucer. To the left of the cup is a white sugar bowl with a lid. Above the cup are several coffee beans and a folded white napkin. To the right of the cup is a silver spoon. At the bottom of the frame, a white tray holds three donuts: one with chocolate glaze and a coffee bean, one with orange glaze and sprinkles, and one with pink glaze and white stripes. The background is a light brown surface with a teal cloth on the left side.

2021 Digital Priorities

The Big 2021 Mandate: Consolidate Systems

Single ordering
platform across
all channels

82%

said very important
or mission critical

One vendor/system
for omni-channel ordering
and menu management

64%

said very important
or mission critical

Brands overwhelmingly agree that a single ordering platform for their increasingly omni-channel world is paramount to success.

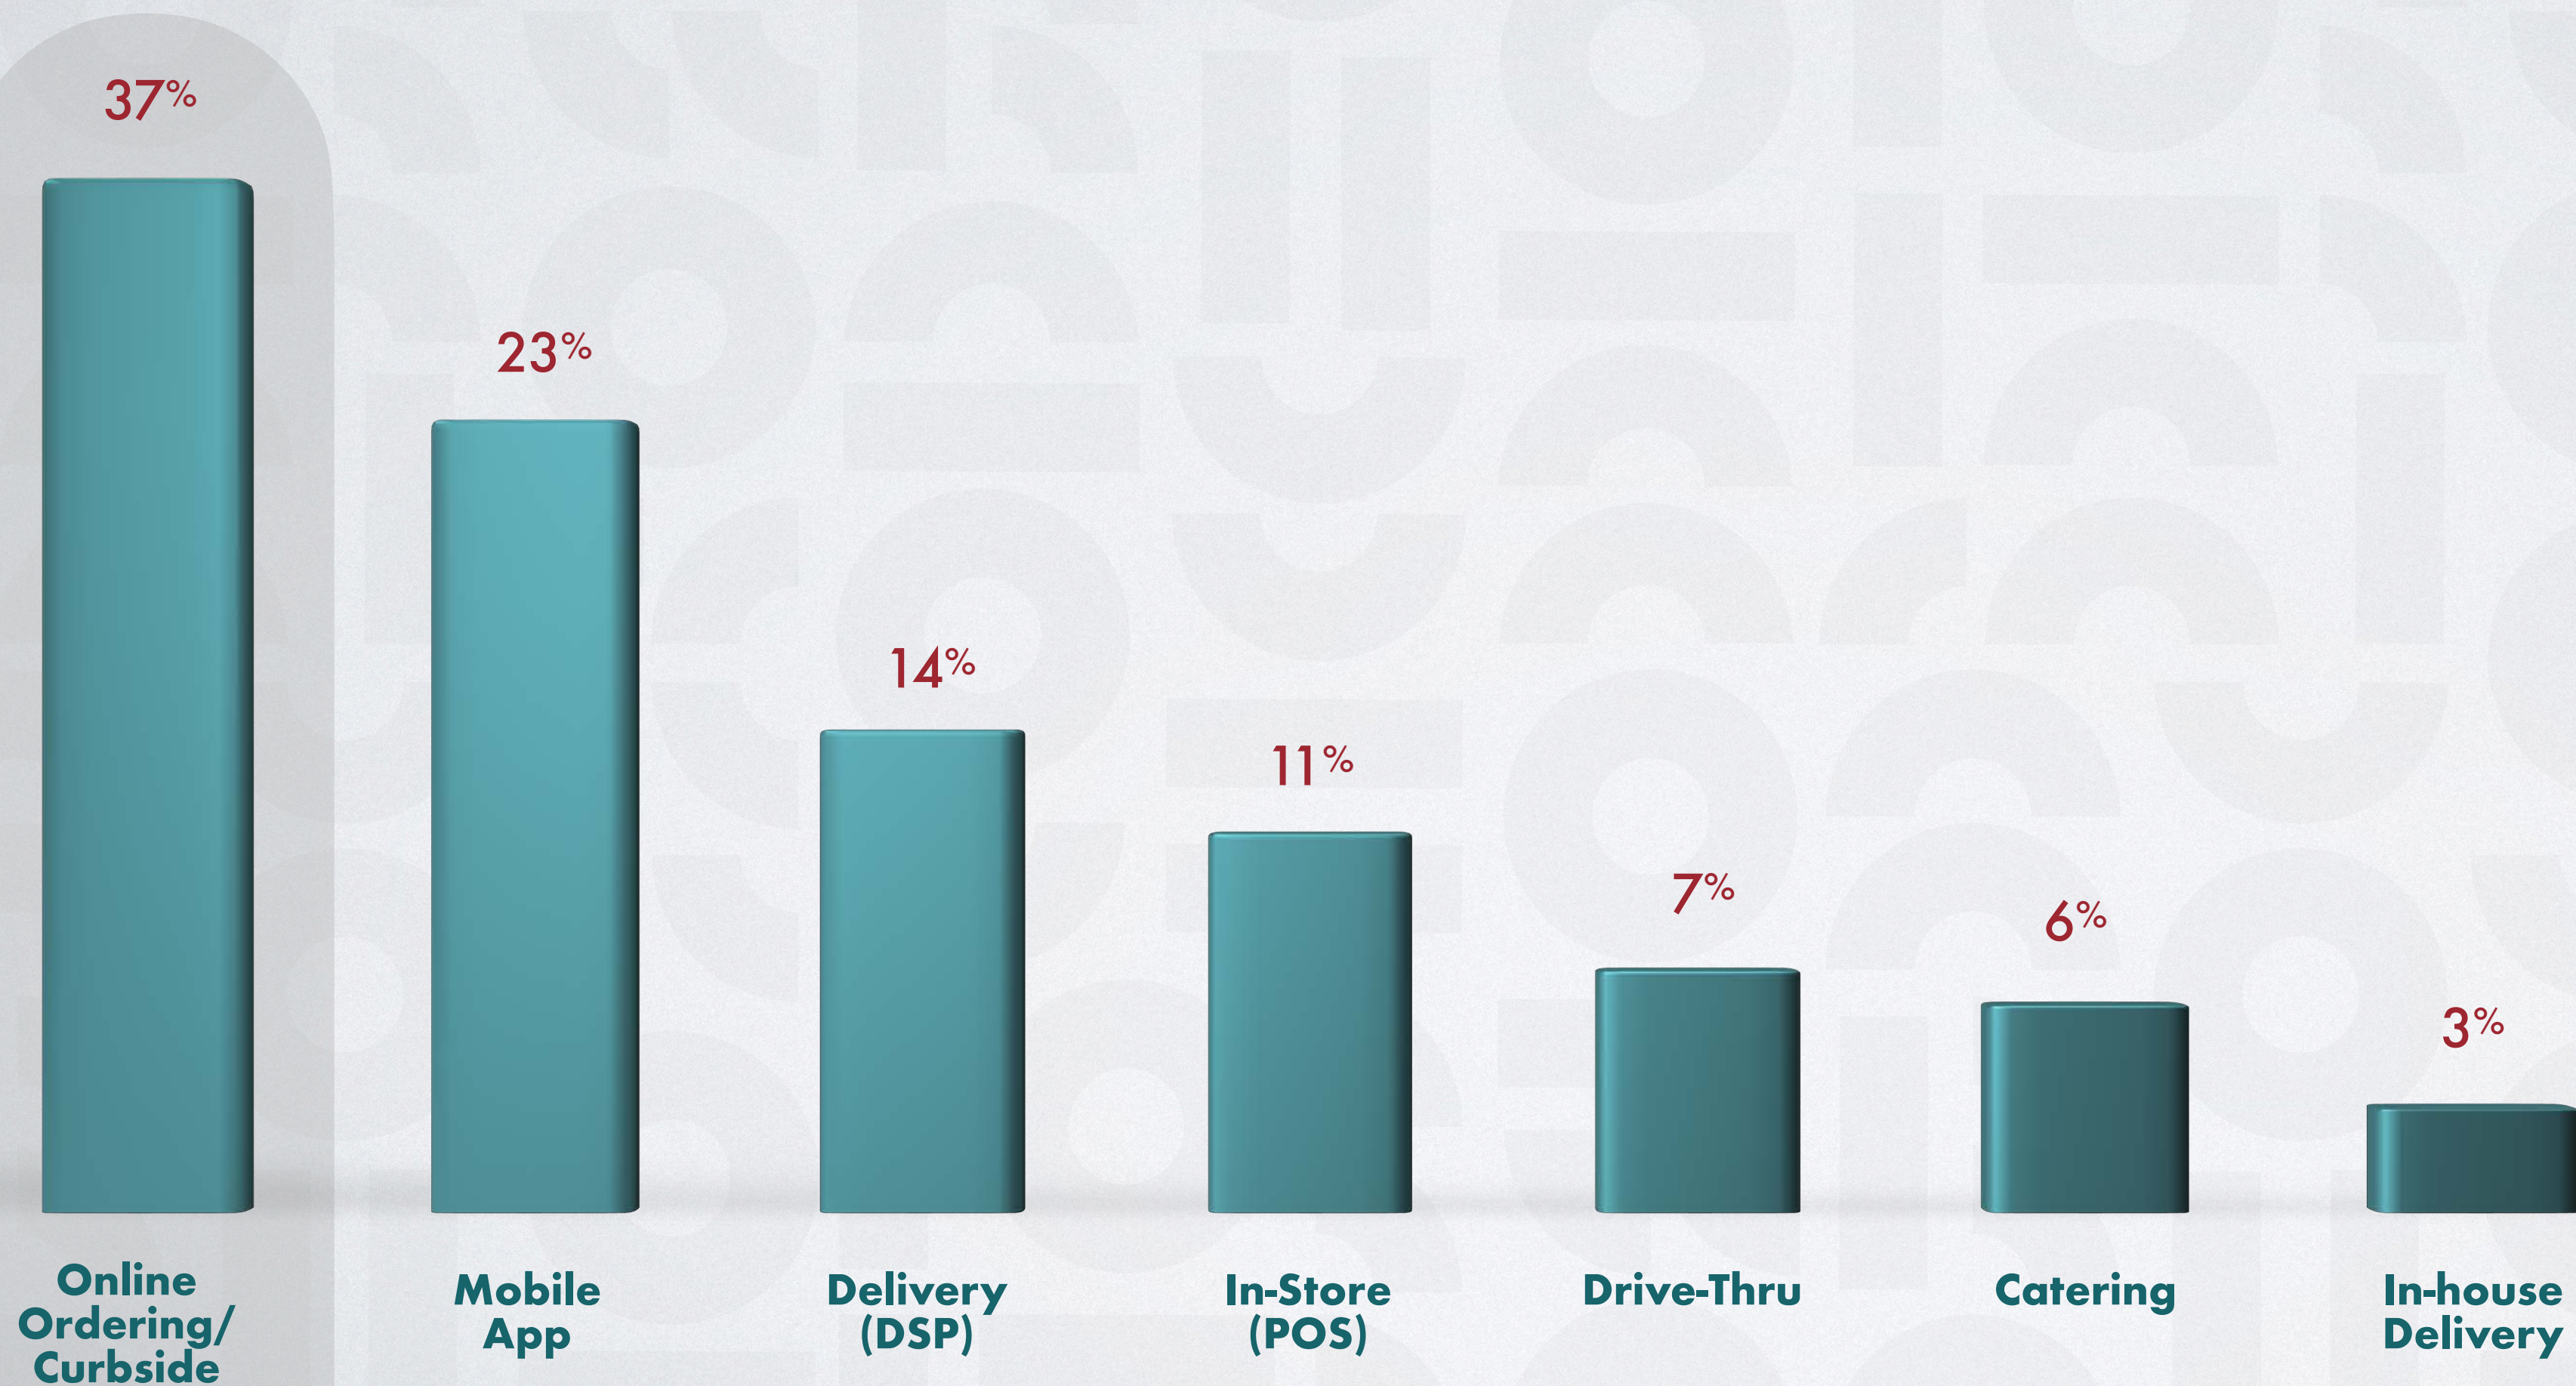

Once again... Operations team members voted the strongest for a single ordering platform (87%); followed by Marketing (78%) and IT (73%).

63% of brands will upgrade some part of their digital ecosystem in 2021

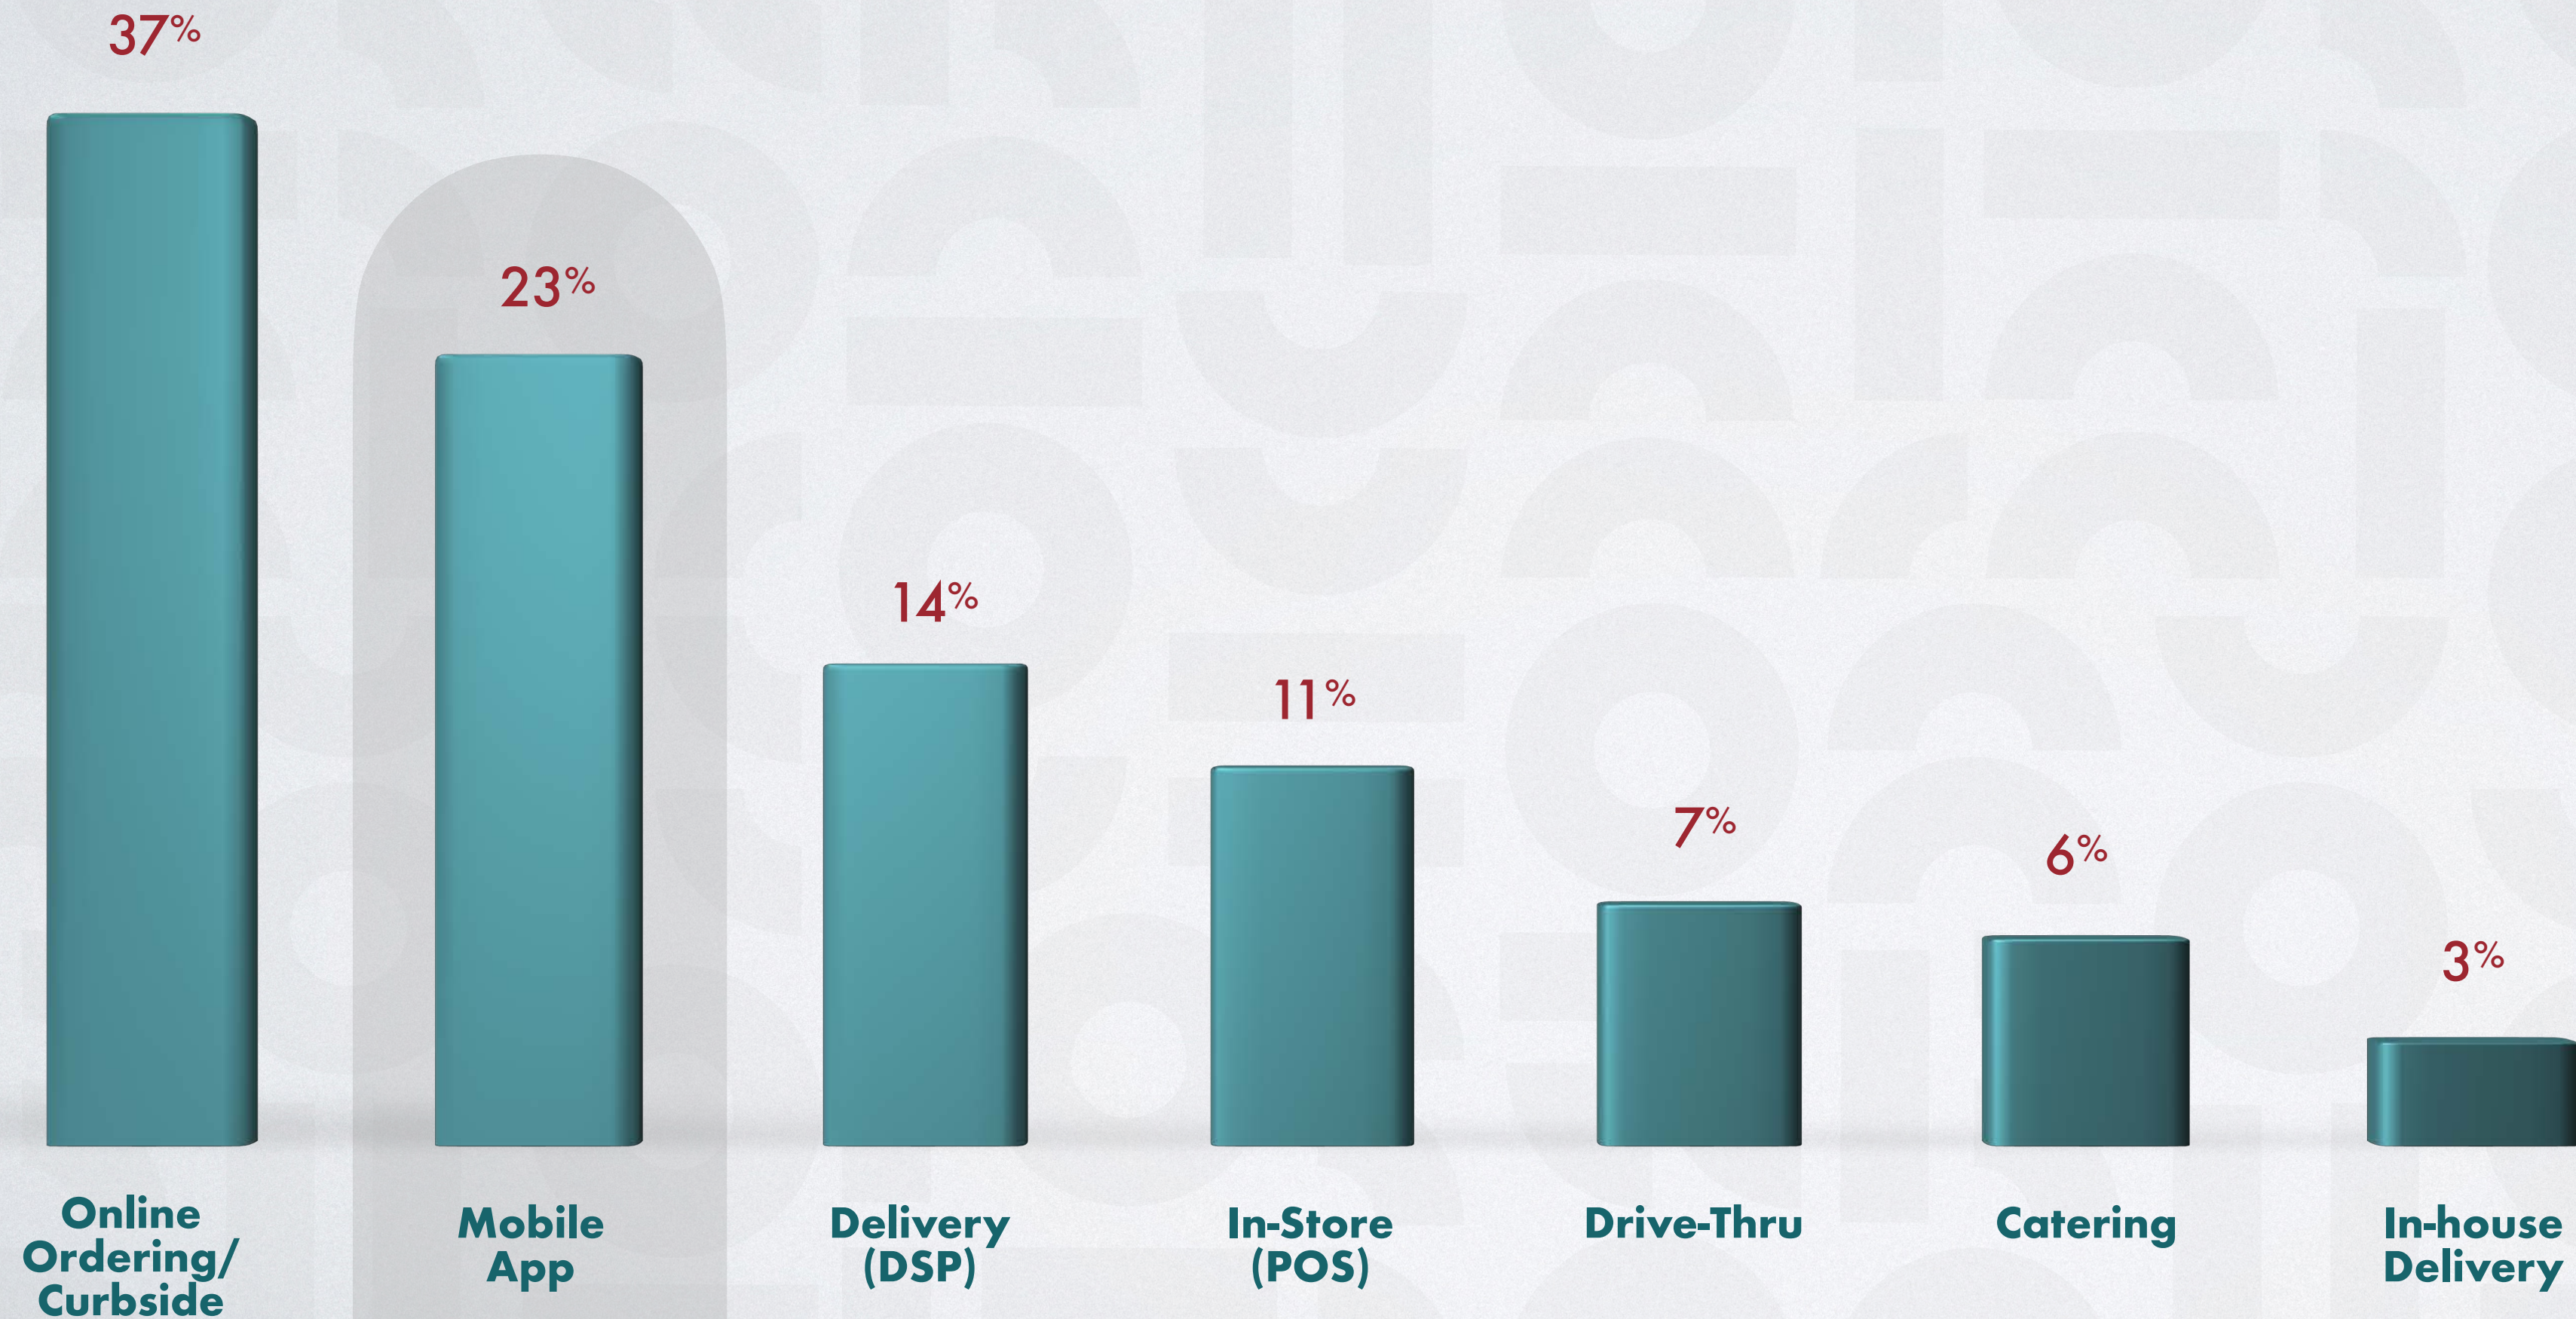

Respondents noted upgrades to their digital ecosystem would span from **mobile, apps, and loyalty to contactless payments, digital menu boards, CRM, and AI-based systems.**

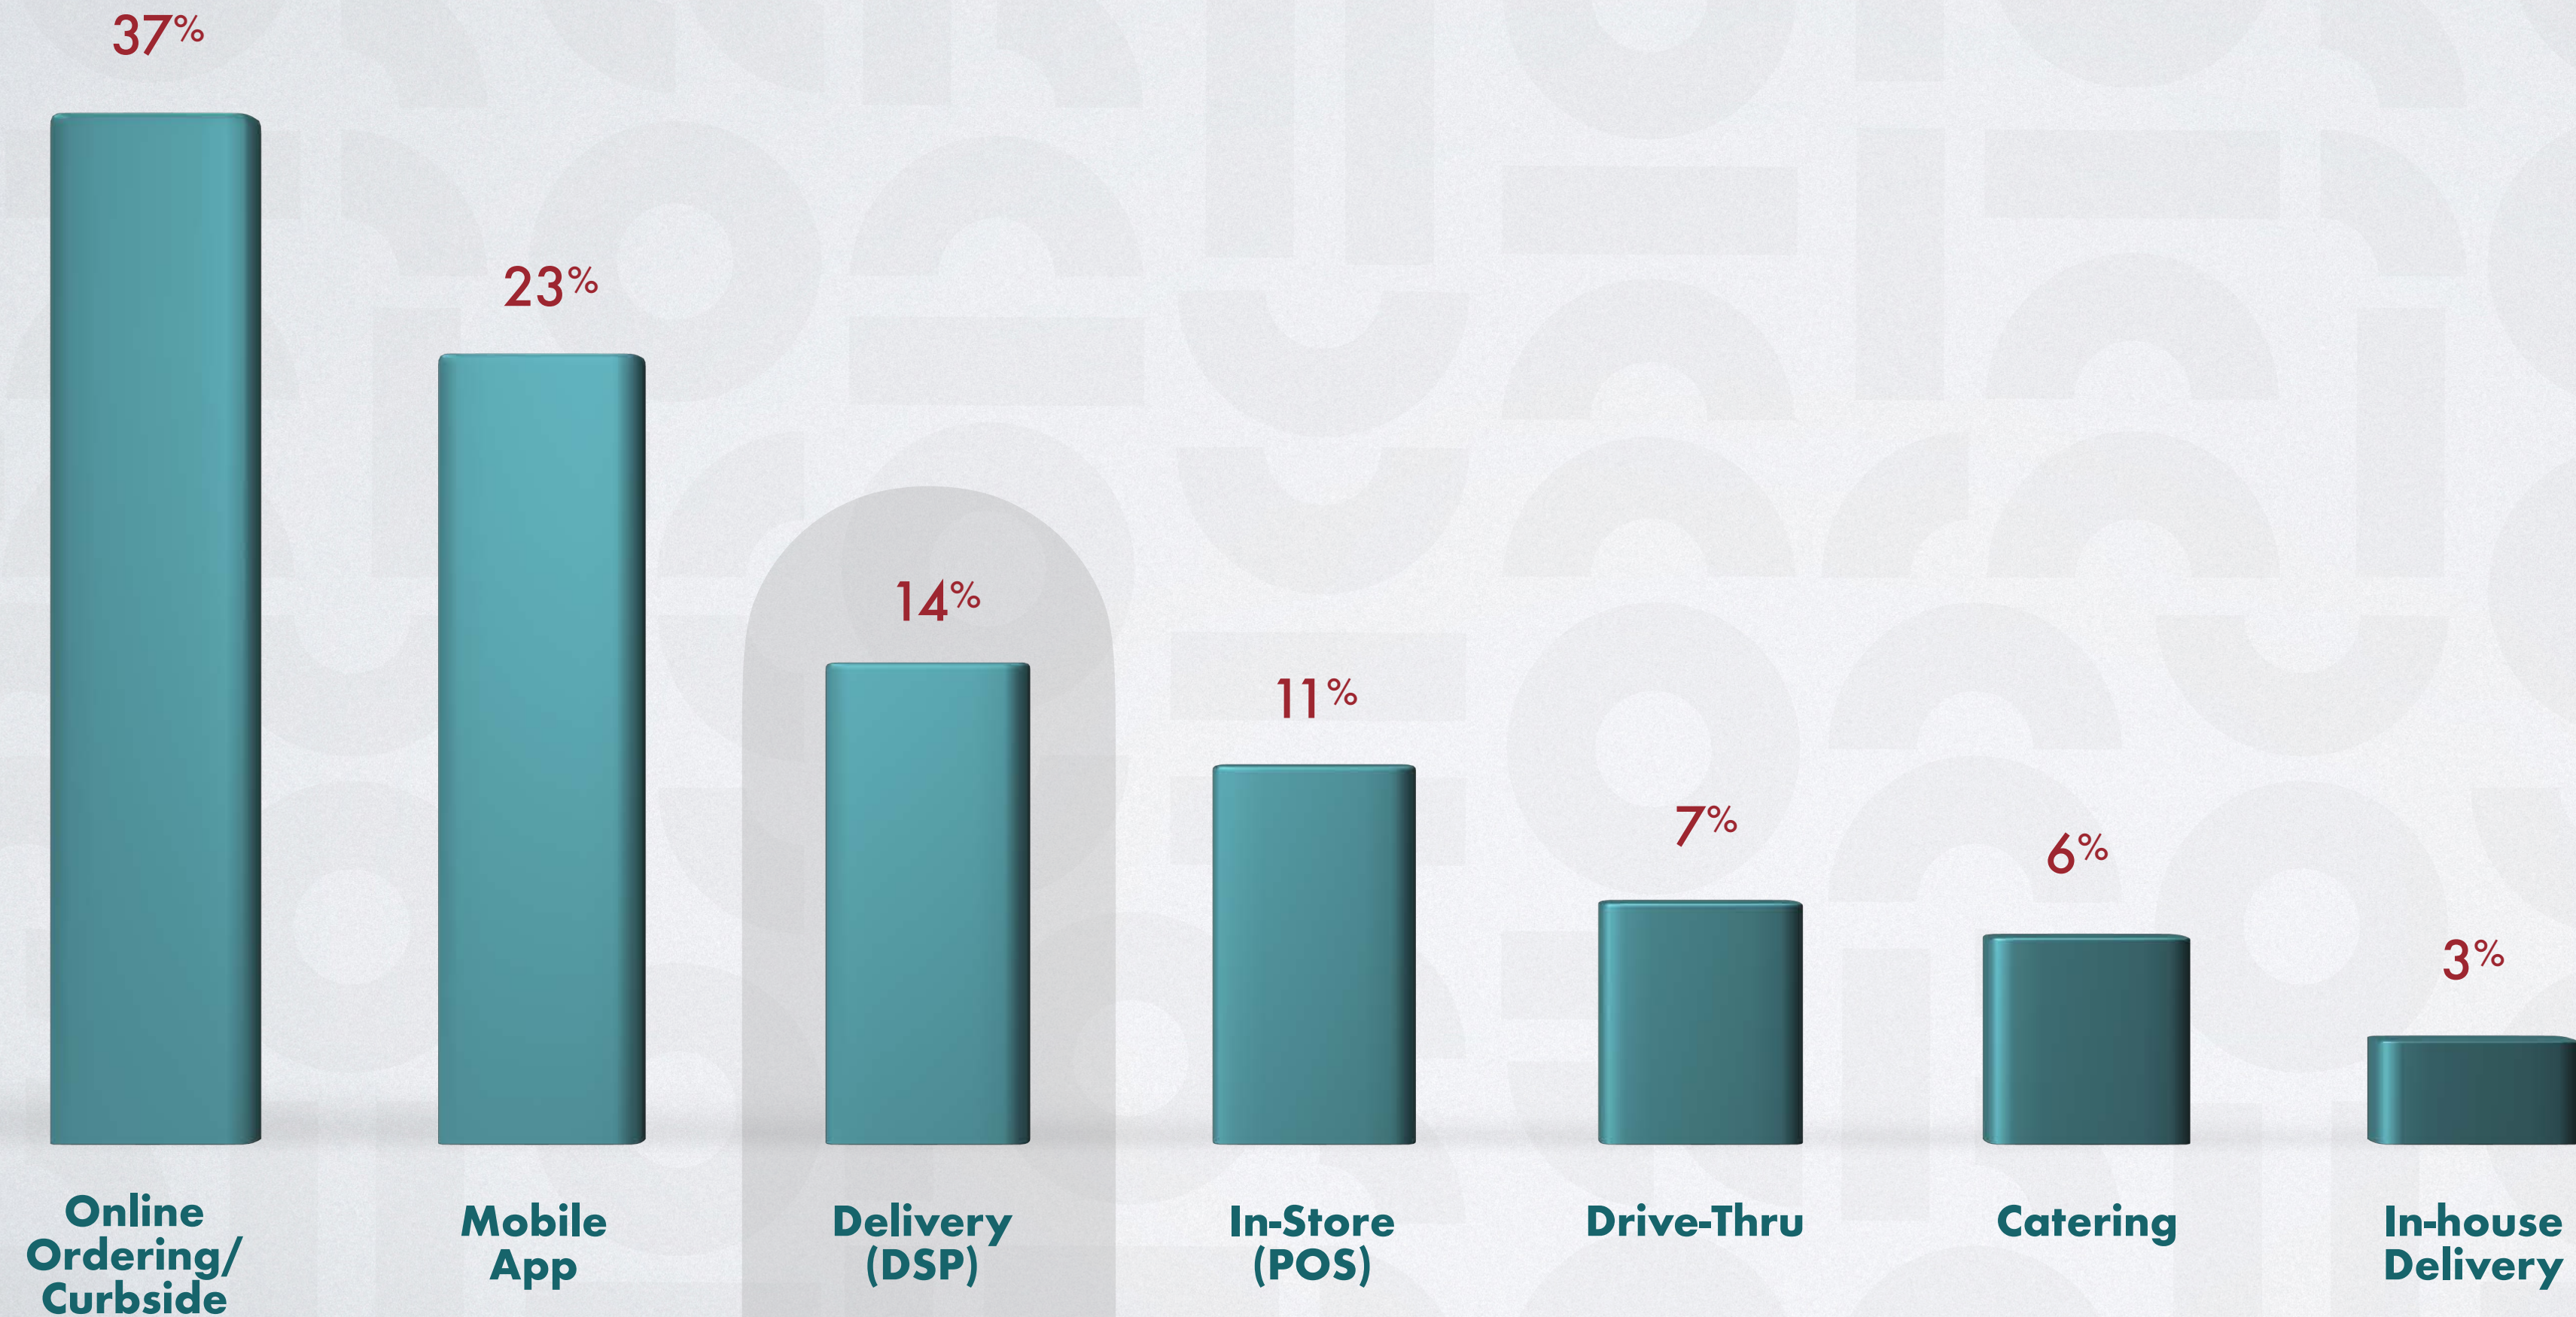

The #1 Digital Priority is (still) Online Ordering

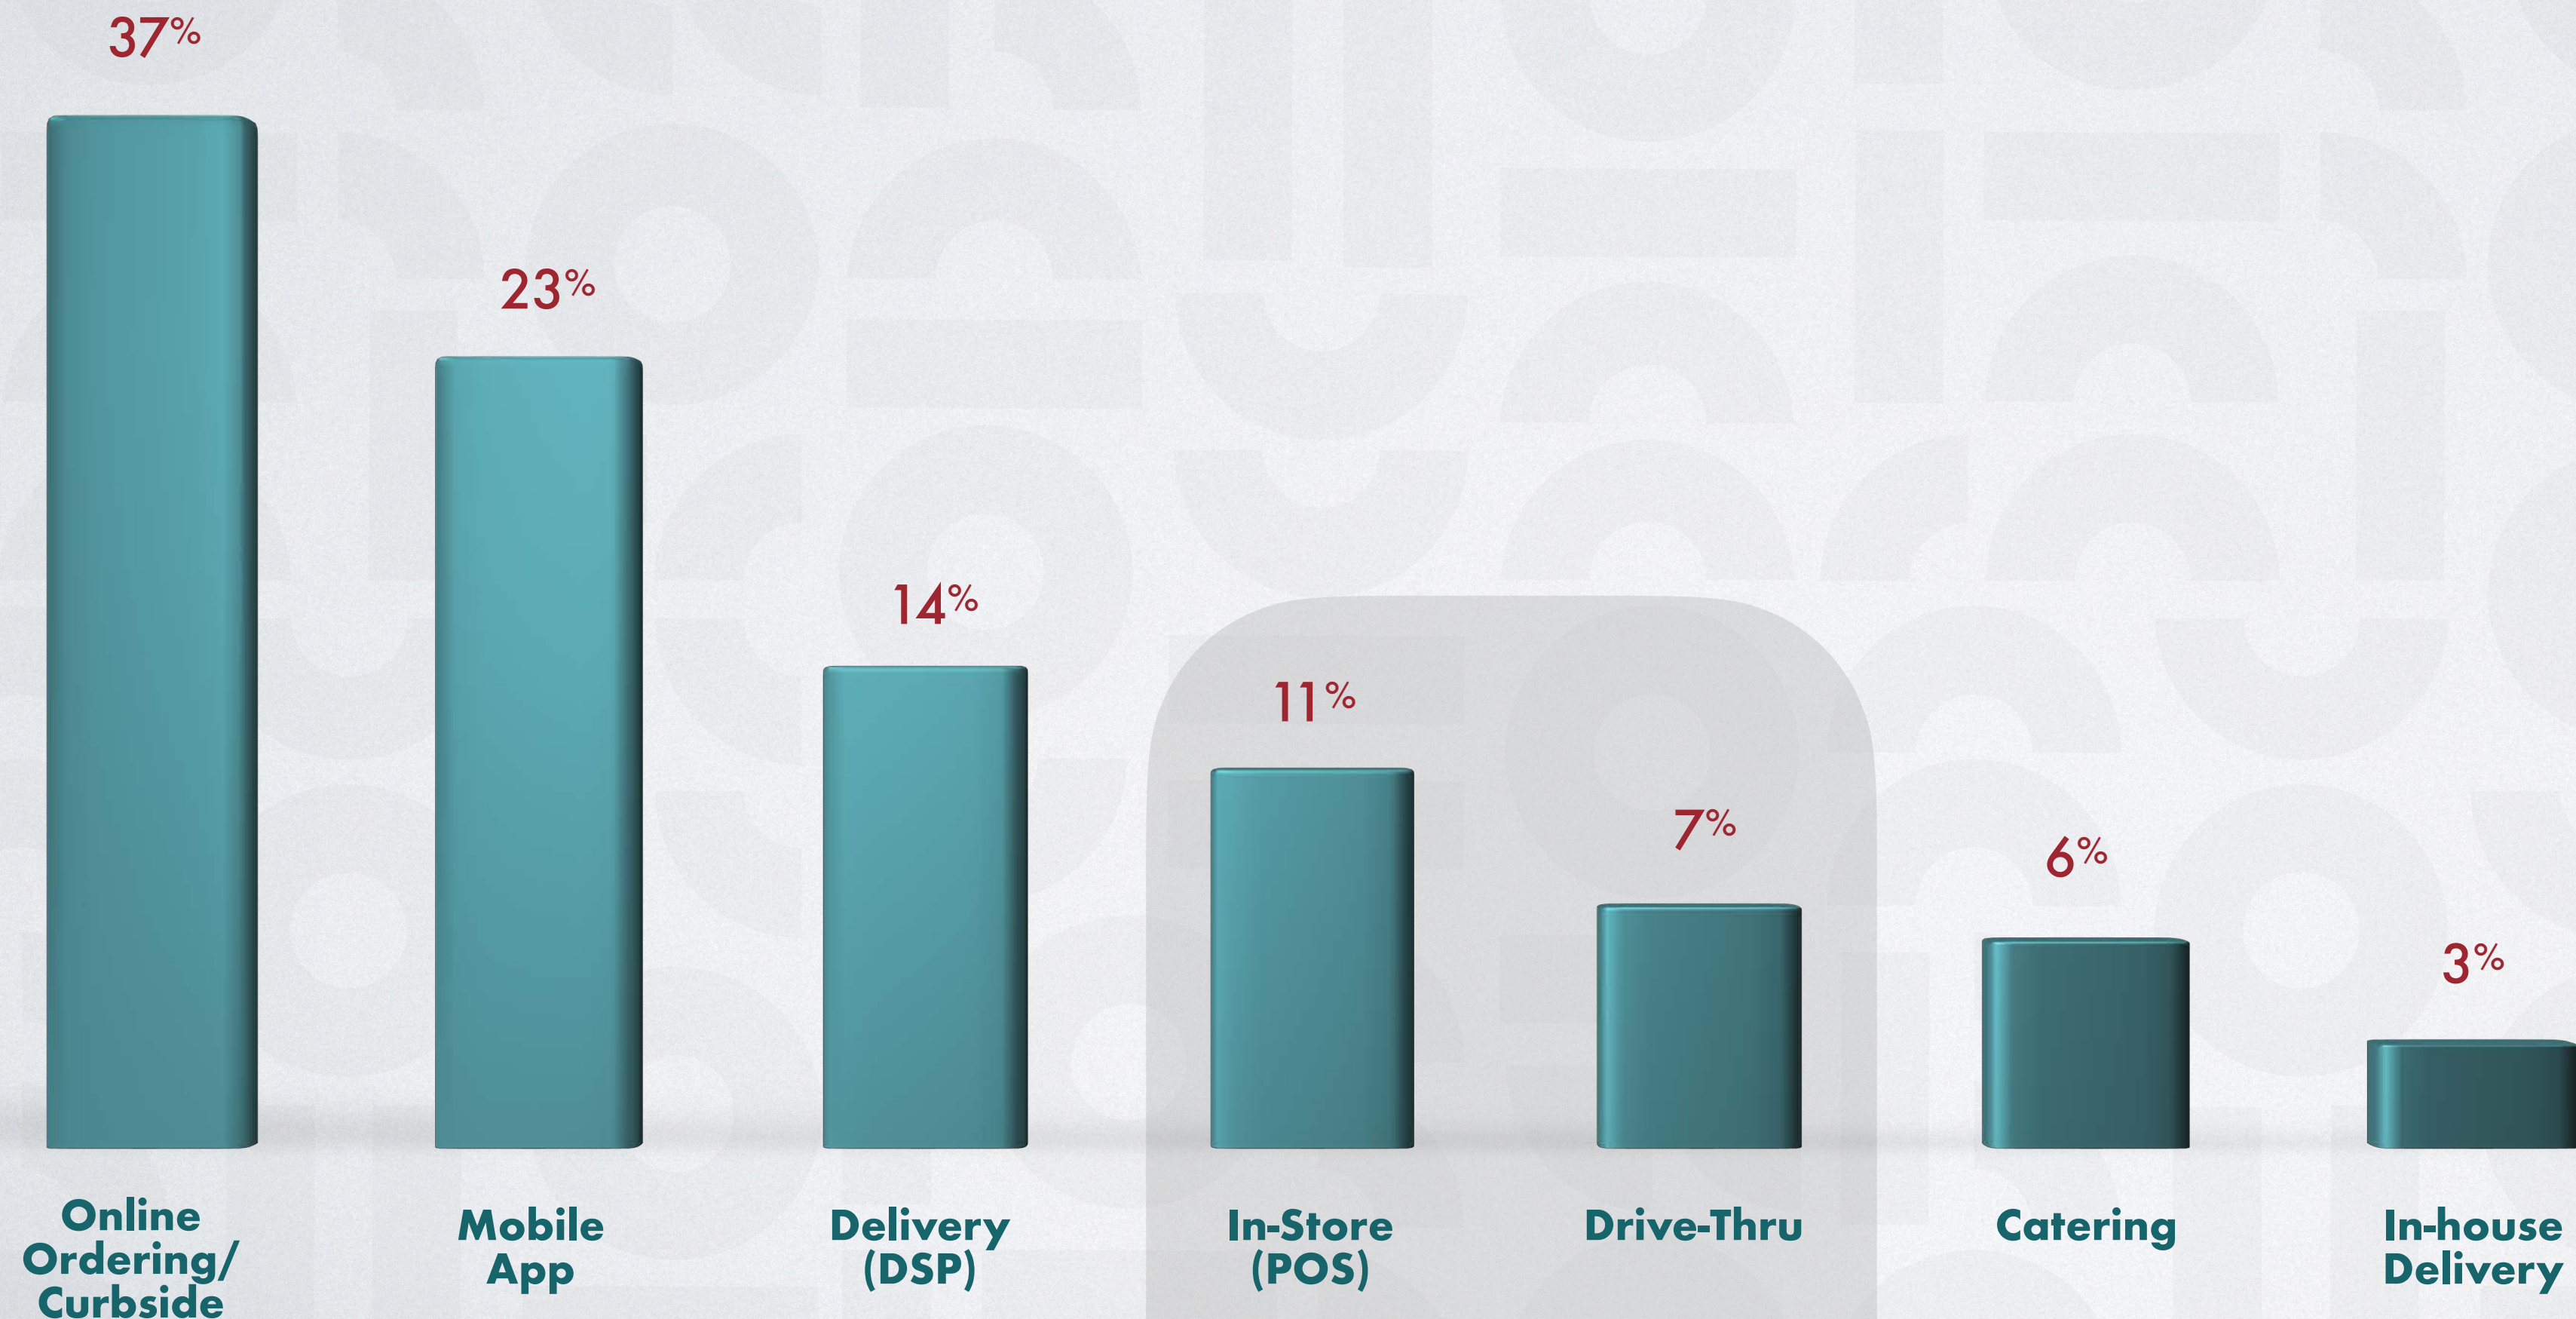

...followed by Mobile Apps

...then Third-Party Delivery Services

...and In-Store POS & Drive-Thru.

Continued focus on Online Ordering not surprising given its ability to drive sales in a pandemic environment.

In 2019, 75% cited Online Ordering as the #1 priority.

Visit QuBeyond.com for info

All Functional Roles Agree: **Online Ordering** is King, but **Ops Says POS is Queen**

IT

1. **Online/Curb**
2. Drive-Thru
3. POS
4. Mobile App

IT prioritized Drive-Thru & POS over the App

Operations

1. POS
2. **Online/Curb**
3. Mobile App
4. Drive-Thru

Operations selected POS as #1 priority indicating their current struggle to support many different systems across ordering channels

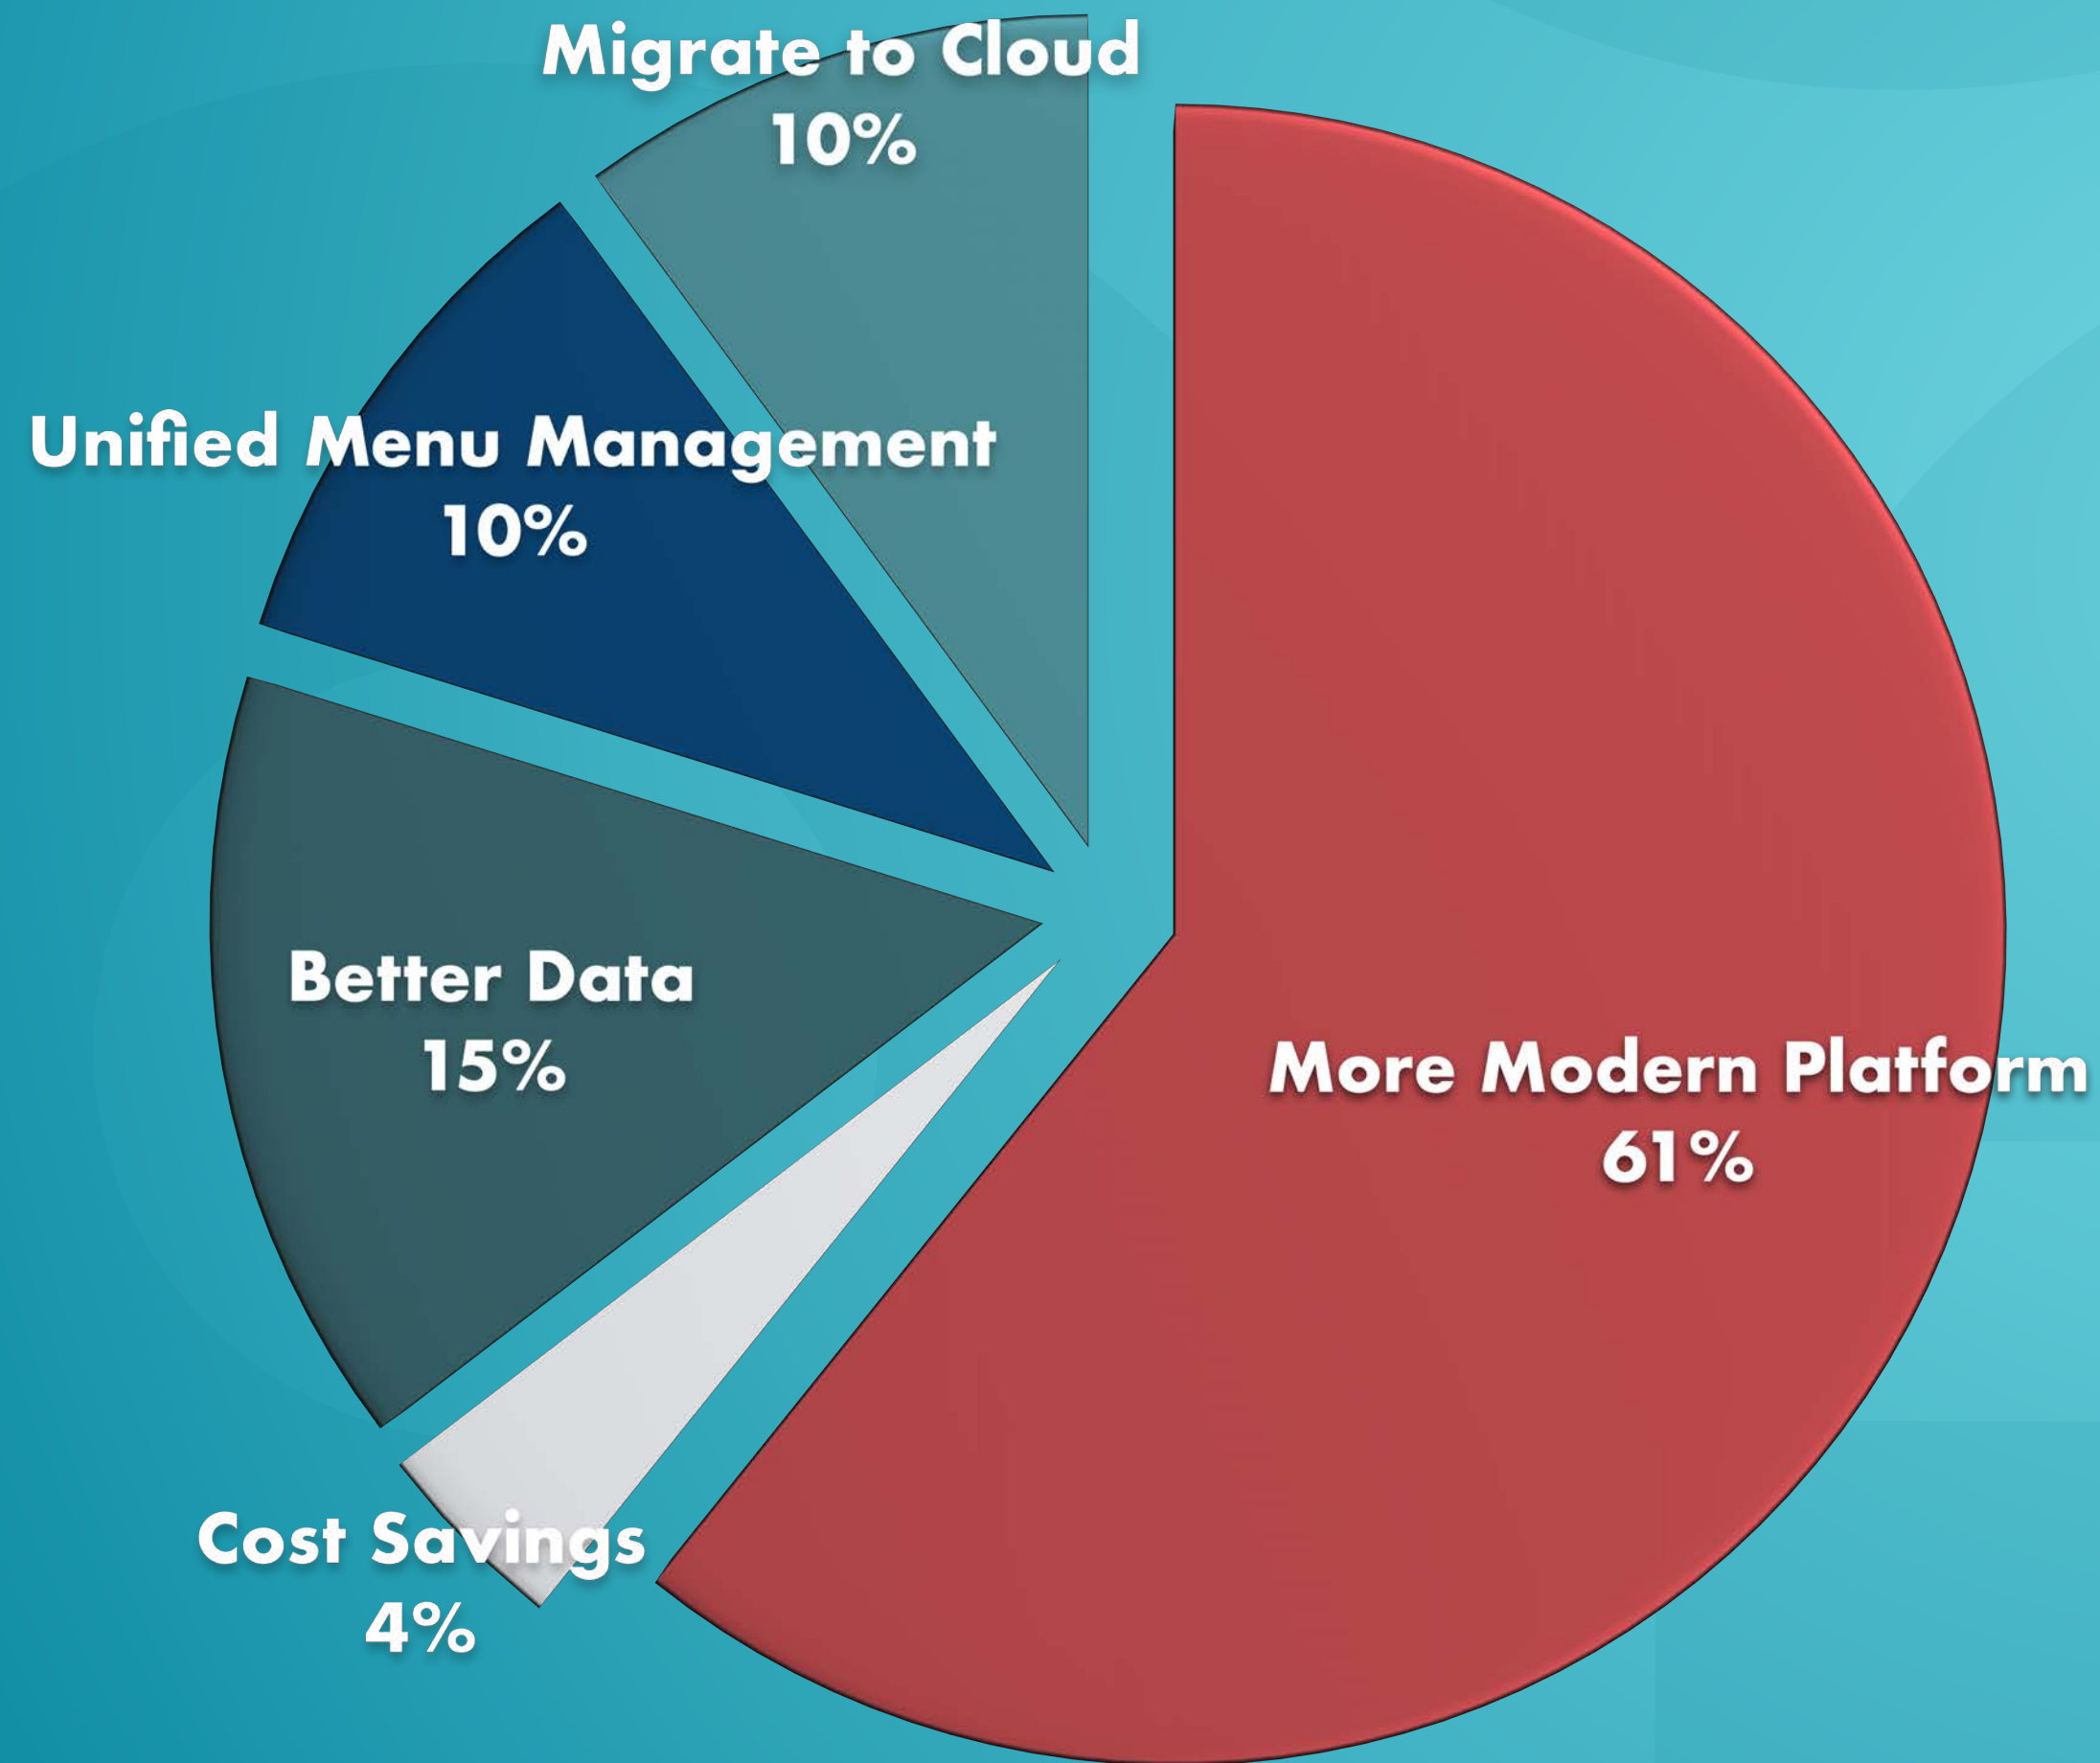

Marketing

1. **Online/Curb**
2. Mobile App
3. Drive-Thru
4. DSP

Marketing prioritized App & DSPs

More Modern POS Platforms are Heavily Favored

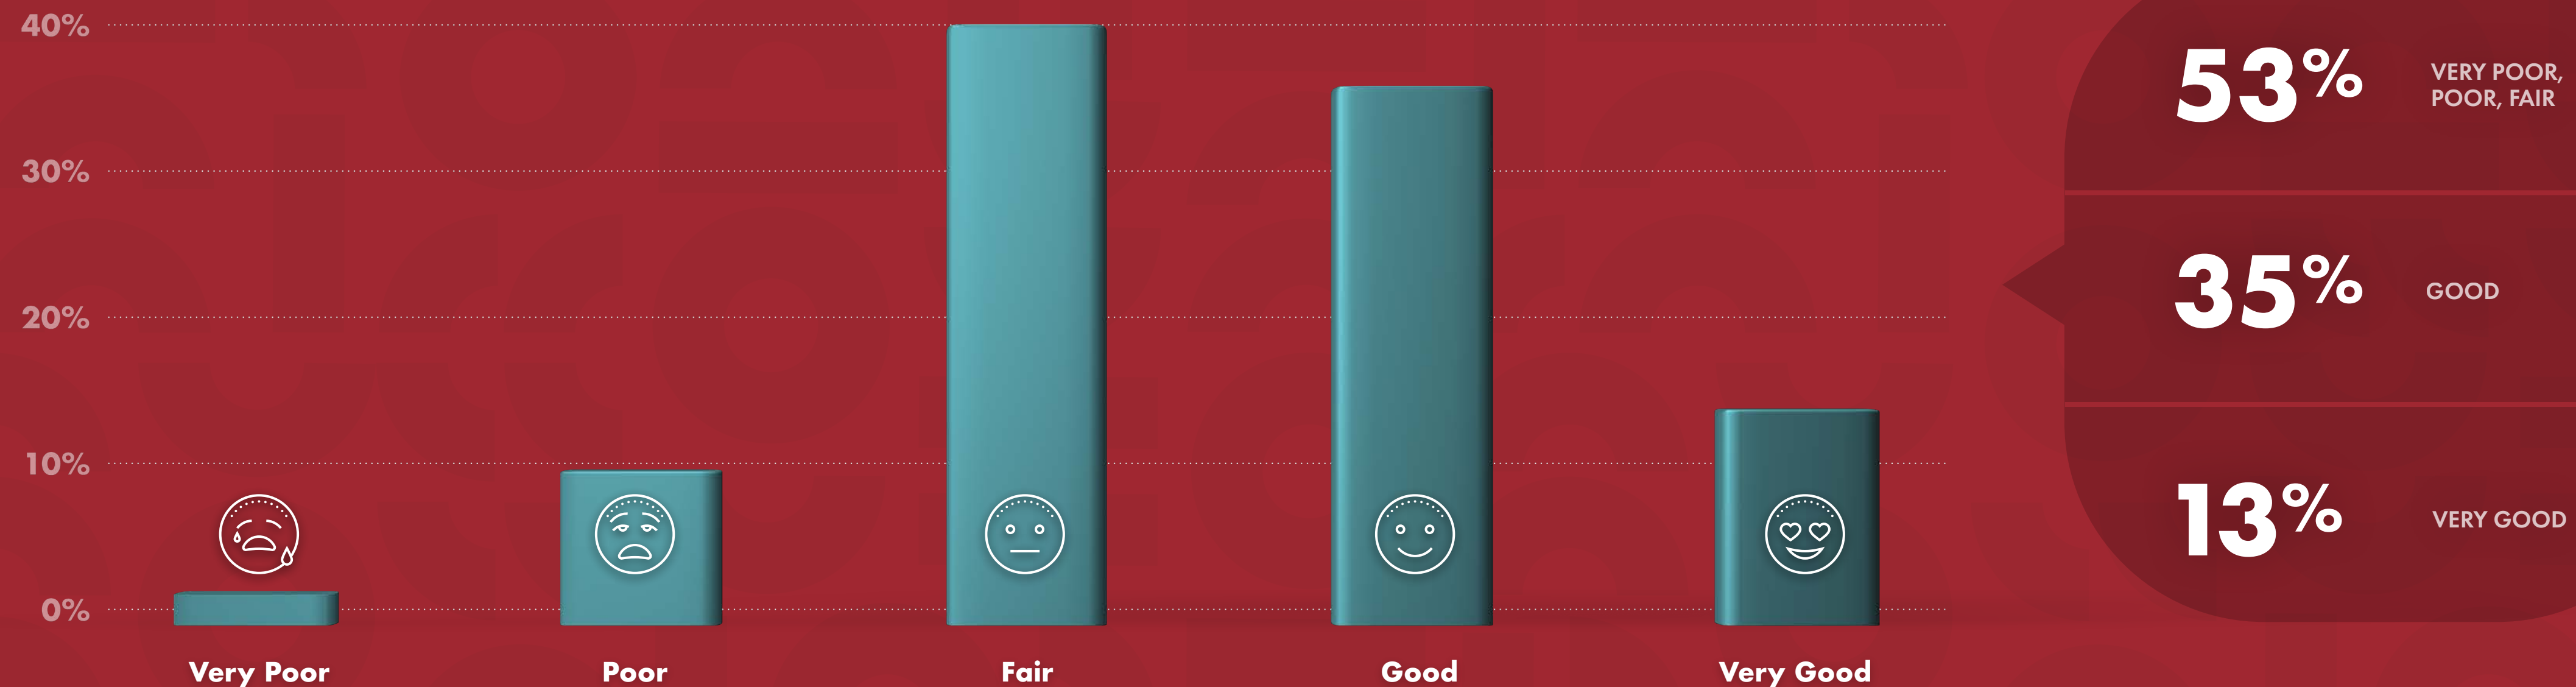

Almost two-thirds of respondents said that a more modern platform for future growth was the main reason for upgrading POS.

Less than 5% cited **“Cost Savings”** as the reason for needing to update their POS.

Over Half of Brands Say their Tech Stack is “Not Good”

More than half of respondents (53%) rated their tech stack as either **Very Poor, Poor, or Fair** in its ability to **scale and support omni-channel ordering efficiencies**.

With at least **60% of enterprise restaurant brands still operating legacy or first-get cloud POS systems**, these ratings illustrate why it's **so hard for brands to transform digitally**.

Operations is the Harshest Critic

Nearly 70% of Ops responders rated their Enterprise Tech Stack as **Very Poor, Poor, or Fair**; followed by Marketing (52%) and IT (43%).
